## DETAILED ACTION

### *Response to Amendment*

Applicant's arguments filed 11/03/2003 have been fully considered but they are not persuasive. The Amendment submitted by Applicant does not overcome the new ground of rejection made by Examiner based on the new amended claims.

Note that claim 1 has been amended to include the recitation "wherein R3 and R4, which may be identical or different, are each an octoxyl group---".

Claim 1 and related claims are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for R3 and R4 may be identical, does not reasonably provide enablement for R3 and R4 may be different. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the invention commensurate in scope with these claims.

Note that the recitation "are each an octoxyl group" clearly requires that R3 and R4 must be identical and are octoxyl group. It does not provide enablement for the case when R3 and R4 are different.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 1711

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
